

Health Profile Chartbook 2016

Lake County

2016 Chartbooks

The 2016 Chartbooks provide a snapshot of the health status of the District Health Department #10 jurisdiction. Information is presented by county and when available, comparisons are made to the jurisdiction, to Michigan, and to Healthy People 2020 Objectives.

Data include population, education, race, births and deaths, incidence of disease, injuries, and immunizations. Last year, a Behavioral Risk Factor Survey was conducted in the entire 10 county jurisdiction by an independent research and evaluation firm. This random telephone survey reached between 350 to 622 residents in each county for a total number of respondents of 4,699. A wide range of health behaviors were included:

- Health status indicators, such as perception of general health, satisfaction with life, weight (BMI), and levels of high blood pressure.
- Health risk behaviors, such as smoking, drinking, diet, and physical activity
- Clinical preventative measures, such as routine physical checkups, cancer screenings, oral health, and immunizations
- Chronic conditions, such as diabetes, asthma, and cancer

In addition, DHD#10 is collecting information for the Community Health Improvement Plan. The four main areas of focus in this plan are

- Poverty
- Access to Preventive Care
- Promotion of Healthy Lifestyle and Behavior
- Creation and Maintenance of Healthy Communities

After the data are presented in this Chartbook, the last section will summarize some of the conclusions from the Behavioral Risk Factor Survey and examples of progress completed toward the CHIP goals.

Demographics

Source: US Census Bureau

- Population, July, 2015 estimate
- Age and race, July, 2015
- Education based on persons age 25 and over, 2011-2015
- Female persons, July, 2015
- Persons per household, 2011-2015
- Language other than English spoken at home (age 5+), 2011-2015
- Disability, under age 65, 2011-2015
- Mean travel time to work (minutes), age 16+, 2011-2015
- Per capita income in past 12 months, 2011-2015
- Population per square mile, 2010

Population:	Lake	Michigan	Race and Ethnicity:	Lake	Michigan
Total population	11,424	9,922,576	White	87.3%	79.7%
Persons under 5 years	3.6%	5.8%	Black	8.8%	14.2%
Persons under 18 years	17.0%	22.2%	American Indian/Alaska Native	1.0%	0.7%
Persons 65 years and over	23.7%	15.8%	Asian	0.2%	3.0%
Education:			More than one race	2.7%	2.3%
High school graduates	81.9%	89.6%	Hispanic	2.6%	4.9%
Bachelor's degree or higher	9.4%	26.9%			

	Lake	Michigan
Gender: females	49.4%	50.8%
Persons per household	2.53	2.52
Language other than English spoken at home	2.1%	9.2%
Disability, under age 65	19.1%	10.3%
Mean travel time to work (minutes)	24.8	24.2
Per capita income	\$16,679	\$26,607
Population per square mile	20.3	174.8

Births

Number of births by year

Poverty

Percent living below the poverty level.

Source: US Census Bureau and Small Area Income and Poverty Estimates (SAIPE) website, provided by Michigan League for Public Policy.

	2011	2012	2013	2014	2015
Michigan - children 0-17	24.6%	24.7%	23.7%	22.6%	22.2%
Lake - children 0-17	48.3%	53.4%	52.2%	44.4%	45.2%
Michigan - children 5-17	22.4%	22.7%	21.6%	20.8%	20.8%
Lake - children 5-17	44.5%	46.3%	45.1%	38.6%	40.3%
Michigan - all ages	17.5%	17.4%	17.0%	16.2%	15.7%
Lake - all ages	26.9%	28.2%	31.0%	29.2%	24.8%

Poverty Indicators

- WIC (Women, Infants, and Children) is determined by the number of children age 0-4 who received benefits in Lake County. Data reflect the county of service.
- School children eligible for free and reduced price meals is based on family income below 185 percent of poverty.
- Percent of births paid by Medicaid.

Source: Michigan Department of Health and Human Services and the Michigan Department of Education, provided by Michigan League for Public Policy.

	2011	2012	2013	2014	2015
Michigan - Medicaid paid births	45.1%	44.0%	43.9%	42.8%	
Lake - Medicaid paid births	68.0%	74.7%	76.5%	70.1%	
Michigan - Children receiving WIC	50.5%	51.2%	51.4%	52.0%	51.1%
Lake - Children receiving WIC	74.3%	83.5%	81.5%	90.8%	95.9%
Michigan - Free/reduced meals	48.1%	48.2%	48.6%	46.7%	46.1%
Lake - Free/reduced meals	92.7%	94.0%	93.4%	92.3%	93.4%

Median Income and Unemployment

Unemployment is based on the number of unemployed compared to the number in the labor force.

Source: Michigan League for Public Policy provided income data from the US Census Bureau and Small Area Income and Poverty Estimates (SAIPE) and unemployment data from the Bureau of Labor Statistics.

Median Household Income

Unemployment

Leading Causes of Death

Leading causes of death are rates per 100,000 population.

* too small to calculate

Source: Michigan Department of Health and Human Services, 2015.

Cause of Death	Michigan	DHD#10	Lake County
Heart disease	200.3	193.5	326.5
Cancer	173.5	182.7	189.5
Chronic lower respiratory disease	44.2	49.5	*
Accidents	41.2	46.7	*
Stroke	37.8	35.3	*

DHD10 - Males	1.9%	3.8%	11.2%	19.8%	27.1%	30.8%
Lake - Females	29.7%	33.1%	34.3%	34.5%	41.4%	44.4%
Lake - Males	1.8%	2.2%	16.2%	24.5%	34.1%	35.1%

County Health Rankings 2017

“County Health Rankings, a collaboration between the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute, measure the health of nearly all counties in the nation and rank them within states.”

www.countyhealthrankings.org

Overall Ranking	Influencing Factors	Components	Ranking (out of 83 counties)
Health Outcomes			81
Represents how healthy a county is, using factors of how long people live and how healthy they feel while they are alive (quality of life)	Length of Life	Premature death	77
	Quality of Life	Poor or fair health; poor physical health days; poor mental health days; low birth weight	81
Health Factors			82
Represents what influences the health of a county	Health Behaviors	Smoking; obesity; food environment; physical activity; excessive drinking; alcohol impaired driving deaths; sexually transmitted infections; teen births	68
	Clinical Care	Uninsured; ratios of physicians, dentists and mental health providers to population; preventable hospital stays; diabetic monitoring; mammography screening	82
	Social and Economic Factors	Education; unemployment; poverty; children in single-parent households; social associations; violent crime; injury deaths	82
	Physical Environment	Air pollution; drinking water violations; severe housing problems; driving alone to work and long commute	41

Conclusions: BRFS

Behavioral Risk Factor Survey Findings

The district-wide BRFS findings show both strengths and opportunities for improvement in the health status of our communities

Strengths

- Most enjoy good to excellent general health, physical health, and mental health
- Adequate social and emotional support
- Large majority have health care coverage and a primary care provider (PCP)
- Most have had no problems receiving needed medical care
- Binge drinking lower than Michigan and US
- Most buy fresh fruits/vegetables locally and feel fresh produce is readily available in their community
- Strong majority have routine physical checkups and health screening/tests, such as mammograms
- Vast majority receiving information on how to manage diabetes, heart attack, angina/CHD, COPD
- Majority of adults aged 65+ immunized against pneumonia and flu

Opportunities for Improvement

- DHD#10 area lags behind Michigan and/or US on most indicators measured
- One in five with fair to poor general health
- Physical health and activity limitation worse than MI
- Nearly one in three obese; one in three overweight but not obese
- Nearly three in ten are current smokers
- Prevalence of heavy drinking higher than MI/US
- Nearly one-third not engaging in leisure time physical activity
- Inadequate fruit/vegetable consumption
- Three in ten have not visited the dentist in past year
- One in three have hypertension
- One in ten have diabetes; one in five over age 55 have diabetes
- Higher prevalence than MI and/or US on chronic conditions such as asthma, heart attacks, heart disease, and cancer
- Nearly one-third have high cholesterol

Conclusions: CHIP

Community Health Improvement Plan (CHIP) Successes

Significant progress has been made in 2016 toward our Community Health Improvement Plan goals. The information provided in the Chartbooks is essential in identifying areas of need in our communities as well as providing baseline measurements to determine if goals have been reached. The following are examples of the progress achieved in each of the four areas:

Poverty

- Number of residents with health insurance has increased from 80% in 2012 to 90% in 2016.

Access to Preventive Care

- In collaboration with community partners, preventive health screenings have been conducted in all ten counties.
- WIC Oral Screening/Fluoride Varnish Programs have been implemented in all ten counties.
- STD clinics have been established in all ten counties.
- HPV immunization rates for females age 13-17 have increased from 27.8% in 2012 to 42.0% in 2016 and rates for males increased from 1.9% to 31.0%, reaching the 2018 goal.

Promotion of Healthy Lifestyle and Behavior

- Rates of obesity and overweight decreased from 70.2% in 2012 to 69.5% in 2016.
- No leisure time physical activity decreased from 26.1% in 2012 to 24.0% in 2016, reaching the 2018 goal of 24.8%.
- Walking challenges, worksite programs, and healthy eating policies were provided throughout the ten county area.
- Tobacco use by pregnant women decreased from 30.1% in 2012 to 27.1% in 2016, reaching the 2018 goal of 29.2%. Tobacco use in the jurisdiction met the 2018 goal of 24.6%; the 2012 baseline rate was 25.3% and the 2016 rate was 23.5%.

Creation and Maintenance of Healthy Communities

- There have been at least ten new venues or policies supporting physical activity within the jurisdiction and meeting the 2017 goal.
- The 2018 goal is to increase the percentage of homes with approved new/replacement wells within the health jurisdiction annually to 30.4%. The rate in 2012 was 27% and the rate in 2016 was 32%, meeting the goal.
- The Michigan Health Endowment Fund awarded \$100,000 to DHD#10 to increase access to healthy foods.
- Local community health coalitions have now been established in all ten counties and the Regional Northwest Michigan Chronic Disease Prevention Coalition has been re-established to address high rates of chronic diseases across the jurisdiction.
