

"What can we do in Lake County to move closer to our vision of a healthy community?"

Community Conversation, Lake County Roundtable, March 17, 2016

Increase community health education	Working together in unity to create a healthy and active community	Increase access for existing and mobile preventive health services	Create opportunities for physical activity	Provide access to affordable, fresh, healthy food	Improve culture and climate to increase job growth	Create opportunities for expanded transportation	Build safe, affordable 24 hour childcare network
Education: food prep; closer training options	Community involvement; culture of healthy people	Access to health care	YMCA for all ages	Bigger, more frequent farmers markets	Jobs - employment to meet basic needs	Transportation needs (after hours)	Child care (extended hours and infant care)
Community education	More local representation	Need for pediatric doctor	Gym (at school, affordable to community)	Community market fruit and vegetables	Job growth and training	Transportation (on demand)	
Food and nutrition education	Church involvement; communication between churches concerning families in crisis	Preventive health programs and services	Youth activities	Community garden (sell produce to support youth activities)	Change culture and climate related to employment		
Cooking classes for families and youth	Community projects	Health equity	Fitness center	Access to affordable and healthy foods			
Community home economics classes open to all income levels	More organized activities for youth (positive guidance)	Mobile clinics	Guided trail walks				
Increase number of women who breastfeed	Increased community involvement and support	Substance abuse prevention and treatment					
Drug and smoking awareness and prevention	Working together						
Personal health accountability							
Education on healthy lifestyle
