

# Determining County Risk Level for Residential Care Visitation Order

2. Click the drop-down arrow next to "Epidemic Spread"  
 Use the highest risk level of the "Test Results" or "New Cases" to determine the final County Risk Level.  
 Use current County Risk Level in table below.

1. Go to [www.mistartmap.info](http://www.mistartmap.info) and select your county in the drop down

County Risk Level (Based on the MI Safe Start Map)	Outdoor	Indoor	Compassionate Care
<b>Low, A, B</b>	Yes, if no recent cases in the facility	Yes, if no recent cases in the facility	Yes
<b>C or D</b>		Yes, with visitor testing, and if no recent cases in the facility	Yes, with visitor testing required for indoor visits. End of life visits are exempt from testing.
<b>E</b>		Not allowed
