Congratulations!

You are proposing to build, convert or remodel a food establishment in Michigan.

The Food Law of 2000, as amended, requires plan review for new, converted and remodeled food service establishments. The goal of plan review is to ensure the proposed menu, facilities, procedures and intended volume of foods to be served will meet food code requirements, before construction or remodeling begins. Plan review involves submitting plans and other related materials, receiving feedback, then providing additional information or adjusting plans as necessary. For an accurate and timely review, all requested documents must be submitted.

Please submit documentation compiled into a single package, along with the appropriate fee to DHD #10.
