

DHD#10 VACCINATED 1,740 ON TUESDAY

Adding COVID-19 Vaccine page to Data Dashboard

January 13, 2021 – District Health Department #10 (DHD#10) held COVID-19 vaccine clinics in eight of our ten counties on Tuesday, January 12, and vaccinated a total of 1,740 individuals.

Vaccine totals by county include:

- Kalkaska = 197
- Lake = 58
- Manistee = 249
- Mecosta = 254
- Missaukee = 201
- Newaygo = 243
- Oceana = 276
- Wexford = 262

During vaccine clinics, everyone will be scheduled for their second dose right there, so you do not have to schedule online. The suggested time in between doses is 21 days for Pfizer or 28 days for Moderna. While it does not have to be the exact number of days in between, you should not wait several months between doses. You must receive the same type of vaccine for both doses. For example, if you received Pfizer for the first dose, you must receive Pfizer for the second dose.

With this afternoon's Data Dashboard update, DHD#10 is adding a COVID-19 Vaccine page (Page 5 on the dashboard) that will provide vaccine totals given at DHD#10 clinics and at other locations such as skilled nursing facilities where we vaccinate residents. Numbers on this page will be updated weekly and will only include vaccines given by DHD#10. They will not include vaccines given by other sources, like hospitals. Please note that *doses given* means the number of vaccines given in each county, not necessarily the number of residents vaccinated in each county. For example, someone from Mason County who was vaccinated in Manistee County would be included in the Manistee County numbers. It is also possible that some individuals who reside outside our jurisdiction were vaccinated at one of our clinics and they would be included in the numbers where they were vaccinated.

"The purpose of our COVID-19 Vaccine page is to keep you updated with information about DHD#10's vaccine distribution," stated Kevin Hughes, Health Officer for DHD#10. "If you are wanting more comprehensive vaccine data, please refer to the Michigan Department of Health and Human Services Vaccine Dashboard at:

DHD#10 continues to ask for patience during this period of uncertainty and we ask that individuals please refrain from calling the health department to ask about scheduling the vaccine. We will continue to keep our communities updated via press release, social media, our website at www.dhd10.org/covid-19-vaccine, and our Public Health Alert. If you have not subscribed to our Public Health Alert, please do so at www.dhd10.org/subscribe. We ask for your patience as we continue to plan and prepare for additional COVID-19 vaccination clinics.
