This week, DHD#10 is hosting first-dose and second-dose clinics for the priority groups throughout our ten-county jurisdiction. Vaccine clinics are by appointment only – please no walk-ins. If people do not show up for their scheduled appointments, DHD#10 has a stand-by list made up of people on our waiting lists to call in so that no vaccine goes to waste. If you are unable to make your scheduled appointment, please email us at covid@dhd10.org to let us know. You will be placed back on the waiting list and will be contacted as soon as we can get you rescheduled.

On February 15, the Michigan Department of Health and Human Services [announced](#) that workers in food processing and agricultural settings will be able to be vaccinated as of March 1 to help ensure the health and safety of Michigan’s essential food and agricultural workers and keep the state’s food supply chain moving. It is important to note that DHD#10 is currently working on plans to accommodate this group in the near future but is unable to schedule individuals that fall in food processing and agriculture quite yet. We will announce our plans as soon as they are complete. It is also important to note that this new group does not include the food service industry such as restaurant workers that serve food. It only includes food processing plants and farms that grow food.

For questions, email covid@dhd10.org. Please go to our website at www.dhd10.org/coronavirus for more information. If you haven’t already, sign up for our Public Health Alert at www.dhd10.org/subscribe to stay informed.
