

# COVID-19 Missaukee County Monthly Summary – July 2021

The purpose of this monthly summary is to provide you with more information regarding cases referred to the health department over the past month. Information is obtained through the Michigan Disease Surveillance System (MDSS). Data provided is for confirmed cases only unless otherwise noted as probable.

**There were the same amount of confirmed COVID-19 cases this month as last month.**

**More than half of the cases were symptomatic during their course of illness.\***

Please note: Symptomatic and Asymptomatic are both contagious

**Of those with symptoms, the most common symptom was fatigue, cough, and fever.**

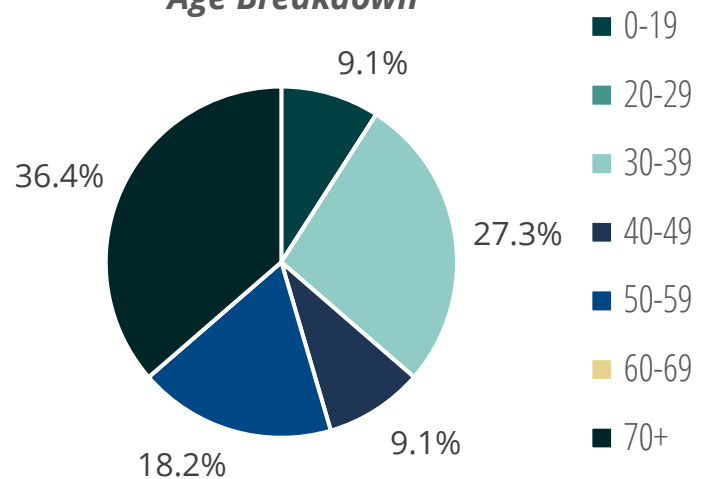

**Known source of exposure has been identified for less than half of the cases.**

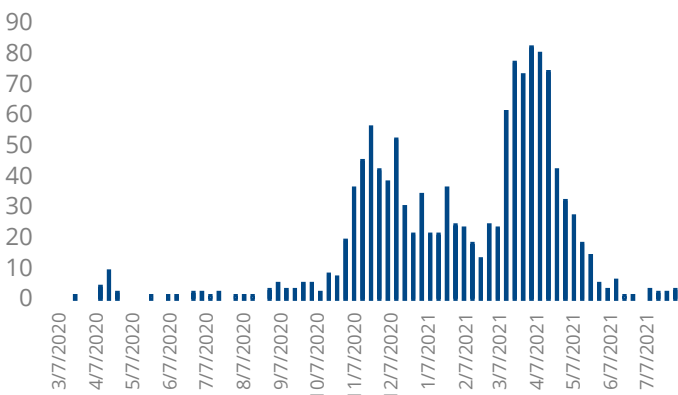

**1** 4 cases are associated with an outbreak at a care facility

**2** Of those unassociated with an outbreak, 1 case is a community contact meaning they are connected to another positive COVID-19 case not within the same household

**Age Breakdown**

**Confirmed Cases by Week**
