## Instructions

1. Complete the entire application and sign.
2. Draw a site plan showing the location of the **existing** buildings, road, driveways, septic system, well and any buried storage tanks.
3. Show the **proposed** additions and buildings as well as measurements including the distance between the building addition and the well and septic system.
4. If no record of a permit is found on file at the Health Department, a bedroom is added or if final approval was never granted by this department, you must complete the following:
  - A. Uncover the septic tank and have it pumped out. Have the septic tank pumper estimate the capacity of the tank.
  - B. Stake the four corners of the drainfield or uncover the drywell.
  - C. If a drainfield, uncover a portion of the header (top of the septic system) and a portion of the footer (the end of the septic system).
  - D. Call the health department for an inspection when the above steps are completed.
