

UPDATE FOR COVID-19 TESTING KIT EXPIRATION DATES

District Health Department #10 Provides Updated Expiration Dates to Residents

February 7, 2023 – District Health Department #10 (DHD#10) wants residents to be aware that their COVID-19 at-home test kits have extended expiration dates.

“Manufacturers have been able to provide data that tests are accurate for a longer period than first projected. People can check the extension information for their specific test kits to see if those tests are still able to be used past the original expiration date,” said DHD#10 Community Health Supervisor Jen Hansen.

To check what your COVID-19 at-home test kits’ new expiration date is, please visit: <https://www.fda.gov/medical-devices/coronavirus-covid-19-and-medical-devices/home-otc-covid-19-diagnostic-tests#list>.

DHD#10 supplies COVID-19 at-home tests; however, supplies are limited. COVID-19 test kits are limited at each DHD#10 office and are available on a first come, first served basis. Individuals are asked to take one kit per person, and up to four kits per household. Test kits are also available at most pharmacies. Be sure to call your pharmacy ahead of time, as demand remains high.

For those wanting to schedule their Pfizer or Moderna bivalent booster, or any COVID-19 vaccine, please visit <https://www.dhd10.org/schedule> or call 888-217-3904. If no appointments are available, consider going to a pharmacy or your primary health care provider. Additional vaccination sites can be found at <https://www.vaccines.gov/search>.

For more information on COVID-19, visit <https://www.dhd10.org/coronavirus>.
